

ergotron®

Professional-grade designs for real manufacturing results

**STREAMLINE WORKFLOWS
AND IMPROVE WORKER
COMFORT AND ACCURACY**

Productive manufacturing processes account for efficient digital workflows and most importantly—your employees' comfort. Ergotron's portfolio of height-adjustable movement solutions, including monitor mounts and mobile carts, place information where it's needed. Your team can work at their best and stay productive in fast-paced manufacturing environments.

Flexible designs

- Open architecture fits most computer equipment now and in the future to maximize your investment
- Let your staff choose how they want to work—sitting or standing
- Attach computer systems directly to machines, floors or walls for accurate information access

Increase productivity

- Ergonomic, height-adjustable designs help relieve common back and neck pain, which can lead to less downtime or missed work
- Place electronic work instructions (EWIs) at the point of need to enhance worker accuracy and productivity

Improve reliability

- Professional-grade products undergo industry-leading testing, including cycle testing and four-times load testing, for a quality solution that supports uptime
- Supports secure technology delivery and theft-deterrence to comply with safety and data security initiatives
